"All events from the bride's preparations to the bride and groom's departure"

The total number of coverage hours included is dependent on the schedule of your wedding day. The photographic coverage included in this package can start as early as 6:00am and end as late as 12:00am. We will be photographing and documenting the day from the time that the groom, groomsmen, bride, and bridesmaids are getting ready and will continue coverage all the way through to the end of the reception.

If you would like additional coverage for the ceremony rehearsal and the rehearsal dinner on the afternoon before the wedding day the rates are as follows: \$700 for an additional "half day" or \$1000 for a full day.

- | Free Engagement Shoot

"A chance to meet your photographer and get comfortable in front of a camera"

An engagement session is important for two reasons. First of all it provides you and your fiancée with a range of great photos that can be used for your wedding invitations, guest book, reception favors, etc... Most importantly however, it gives you and your fiancée a chance to experience what it is like to be the subject of a photograph and also gives you and the photographer a chance to get to know each other. We have found that weddings photographed after meeting the couple for an engagement session go much smoother than the weddings without an engagement session. It can be a little nerve racking at first to be photographed, but it will not take long for the uncomfortably to wear off and you can actually have fun with it.

The engagement session is normally an extra charge of \$500-\$1000 but is offered complimentary in the Atlanta area only with "The Atlanta Special". The engagement session can be scheduled after securing your wedding date, and must take place before it.

| DVD of 300-400 photos

"Black & white and color copies of all your photos on a single DVD"

"The Atlanta Special" includes anywhere between 300 and 400 original photos on a DVD. You will have a black & white and color copy of every photograph; so in total between 600 and 800 photos will be on the finished DVD.

All photographs on the DVD are under copyright to Public Image Photography and the photographer. Permission of use (for printing, email, and other forms of distribution) is given to you for personal use only. No photograph, original or edited, may be sold or commercially distributed for any reason without prior written consent.

| 60 page album of at least 100 photos

"Your choice of two styles – both are great options"

All of our "Atlanta Special" wedding albums contain 60 pages, and at least 100 photos, but you will have your choice from two types of album.

The first is a 10"x10.5" imported Ferlester album that is our more traditional of the two. Each photo is printed in a classic 3.5"x5" white bordered format and is permanently placed into the album by hand. These albums are artistic and simple – a very beautiful way to share your wedding with friends and family.

Our second type of album is the more contemporary 11"x8.5" "Magazine Style" album. Called "Magazine Style" for the layout and type of pages, each one of these albums is digitally designed and laid out before being professionally printed into a leather bound hardback book. Every book comes foil stamped with the couple's name and is protected by a similarly designed dust cover. Though typically bound in black leather, red, and tan are also available. This style of album has also been called the "Coffee Table (book) Style".
